PROFESSIONAL SUMMARY

Product designer with an MFA in Design and Technology from Parsons and a creative strategy background at TikTok and Universal Music Group. Experience spans research, information architecture, visual systems, accessibility, and React Native implementation.

WORK EXPERIENCE

Julius Education Aug 2026 - Present

Product Design Intern

- Building Julius's corporate website page by page, including product-suite pages, using stakeholder feedback to shape a unified public-facing direction.
- Building design-system components across Julius's dark-themed site and lighter, data-heavy products, refining geometry and corner treatments while establishing Storybook, Chromatic, and GitHub CI checks on each PR.
- Supporting Career Map with mobile breakpoints and accessibility review, and developing a Claude skill to check future maps against accessibility requirements before release.

Universal Music Group - Island Records Aug 2023 - Aug 2024

Creative Strategy Assistant

- Owned music-video delivery across the Island Records roster, working with artist teams before shoots to meet UMG ingestion and monetization requirements, then managing vendor handoffs, release events, and urgent re-ingests.
- Sourced a custom-merch vendor and coordinated production-to-venue delivery for charlieonnafriday on Tate McRae's tour so jerseys reached each stop on show day.

TikTok (ByteDance) May - Aug 2022

Creative Strategist Intern

- Developed six SMB content-series concepts for TikTok for Business, including owner interviews and best-practice video reviews.
- Pitched the infinite-scroll-inspired "rabbit hole" concept for TikTok World 2022, which the team developed into an immersive portal and interactive activations. Wrote Shopping Ads launch copy later reused across TikTok for Business e-commerce.

TikTok (ByteDance) May - Aug 2021

Creative Strategist Intern

- Designed 3 of roughly 10 Dynamic Showcase Ads launch templates as layered Photoshop files with fixed catalog-product slots. Light Academia shipped in the launch library and was later selected by American Eagle Outfitters.

National Science Foundation Jun - Aug 2019

Undergraduate Research Assistant

- Led a design team in producing an instructional video on monodromy for a professional conference, translating mathematical research for mathematicians and software engineers.

PROJECTS

Fresh Greens MFA Thesis

Solo-designed and built a React Native and TypeScript wayfinding prototype for Black drivers. Its deterministic, source-traceable route scoring uses daylight, public map data, and community reports. Built in dynamic type and VoiceOver support.

UnderstandingFAFSA

With one collaborator, evaluated 120+ newsletters to inform modular Figma-to-Mailchimp templates with locked and swappable rules for a non-designer founder. Kept the HTML below Gmail's 102KB clipping limit. Open rates rose from about 30% to 52.6%, with Mailchimp Privacy Protection excluded.

Navi

Audited six travel platforms and reviewed 14 resident-survey responses to shape a neighborhood-led Learn / Plan / Go information architecture and visual system. Later rebuilt the project as a live component library and working booking flow.

EDUCATION

MFA, Design and Technology | Parsons School of Design (The New School) 2024 - 2026

BA, Media Studies, Minor in Mathematics | Pomona College 2018 - 2022

SKILLS

Design: UX Research, Information Architecture, Design Systems, Visual Design, Interaction Design, Accessibility (WCAG)

Build and Tools: React Native, TypeScript, Expo, Figma, Adobe Photoshop, Adobe Illustrator, Mailchimp, Claude Code

3D and Motion: After Effects, Blender, Unity
