PROFESSIONAL SUMMARY

Product designer (MFA, Parsons) with a creative strategy background at TikTok and Universal Music Group. I design end to end and tend to go past the prototype: I solo-built an accessibility-first React Native app, and I rebuilt a nonprofit's newsletter as a modular system a non-designer could run without breaking the brand. I care about accessibility, design systems that hold up, and testing ideas before committing to them.

CORE COMPETENCIES

End-to-End Product Design

UX Research & Testing

Interaction & Visual Design

Design Systems

Accessibility (WCAG)

React Native, TypeScript

Figma & Prototyping

INDEPENDENT WORK

Fresh Greens

Solo Designer & Engineer | 2025 - 2026

Wayfinding app for Black travel in America, designed and shipped solo in React Native. Built on a three-layer architecture so every routing decision stays auditable, with a reserved-color signaling system and accessibility built in from the start: WCAG dash-pattern encoding, dynamic type, and VoiceOver support.

Figma | React Native | TypeScript | accessibility (WCAG)

UnderstandingFAFSA

Product Designer | Feb 2025 - Present

Newsletter redesign for a nonprofit navigating financial aid. Built modular Figma to Mailchimp templates with locked-vs-swappable rules so a non-designer founder could ship on-brand without a designer in the loop. Ran a competitive audit of 120+ newsletters to ground the redesign. Open rates went from about 30% to 52.6%.

Navi

UI/UX Designer | Jan - Jun 2025

Regenerative-travel platform for NYC neighborhood experiences. Resident-led research, three personas, and concept testing before visual execution: 78% preferred neighborhood-led recommendations over generic top-ten lists. Defined IA, the Learn/Plan/Go framework, and the visual system.

WORK EXPERIENCE

Universal Music Group, Island Records

Aug 2023 - Aug 2024

Creative Strategy Assistant | New York, NY

- Owned music-video delivery across the Island Records roster: partnered with artist production teams pre-shoot to meet UMG's ingestion and monetization specs, managed deadlines and vendor handoffs (Vevo, Apple), ran Vevo release events, and handled last-minute re-ingests, through high-pressure releases like Sabrina Carpenter's "Feather."
- Coordinated a last-minute custom-merch rollout for charlieonnafriday on Tate McRae's tour: sourced the vendor and managed production-to-venue logistics with the artist's PM so custom jerseys hit each stop on show day.

TikTok (ByteDance)

May - Aug 2022

Creative Strategist Intern | New York, NY

- Pitched the "rabbit hole" creative concept for TikTok World 2022 (global product summit, 400+ agencies): an infinite-scroll-inspired immersive theme the team ran with, realized as a funhouse-style portal entry with interactive activations. Wrote Shopping Ads launch copy later reused across TikTok for Business e-commerce.

TikTok (ByteDance)

May - Aug 2021

Creative Strategist Intern | New York, NY

- Designed 3 of ~10 templates in TikTok's Dynamic Showcase Ads launch batch. One shipped and was adopted by American Eagle. The format debuted at TikTok World 2021 and was later folded into TikTok's Video Shopping Ads.

EDUCATION

MFA, Design & Technology | Parsons School of Design

Aug 2024 - May 2026

BA, Media Studies | Pomona College.

SKILLS

Design: end-to-end product & UX design, user research, design thinking, IA, prototyping, interaction & visual design, design systems, typography, accessibility (WCAG).

Tools & Build: Figma, Adobe Creative Suite, After Effects | React Native, TypeScript, Expo, HTML, CSS | Claude Code.
